FOREWORD

Some of the glory of the Philippines lies in the beautiful variety of people and languages within its coasts. It is to the great credit of the national leadership over the years that no attempt has been made to destroy this national heritage. The goal has been instead to preserve its integrity and dignity while building on this strong foundation a lasting superstructure of national language and culture.

The present book is one of many designed for this purpose. It recognizes the pedagogical importance of dividing literacy and second language learning into two steps--literacy being the first. When a student has learned to read the language he understands best, the resulting satisfaction in his accomplishment gives the drive and confidence he needs to learn the national language. His ability to read, furthermore, is the indispensable tool for the study this program will require.

The Department of Education and Culture of the Philippines is proud to present this latest volume in a nationwide series designed to teach the national language through literacy in the vernaculars. It will strengthen both the parts of the nation and the whole.
