This booklet is published by the Lanao Committee of the United Church of Christ in the Philippines, as a part of its Literacy Program. It was prepared by Margaret J. Hamm in consultation with Batua A. Macaraya.

The material has been designed to introduce the letters of the Maranao alphabet to speakers of that dialect. Because no Maranao words actually begin with  or , these letters are not included in this booklet.

Dear Howard:

This is the alphabet book Margie worked out. The stencils can be cut and re-organized to adjust for the vowels as may seem best. We have printed up only a few. We will use these as they are for the time being.

I wish you could come and help us with this before Bats and I go.

Thanks for everything.

Dave
