Prakata

Kami menyambut gembira terbitan Tesaurus ketiga hasil penelitian Kerjasama Uncen-SIL ini yang merupakan tambahan dokumentasi bahasa daerah yaitu bahasa Mai Brat salah satu bahasa daerah suku terpencil di Irian Jaya.

Tesaurus tentang bahasa-bahasa daerah/lokal Irian Jaya ini penting artinya karena: a) merupakan pelaksanaan kebijakan Pemerintah dalam usaha menginventarisasi dan mendokumentasikan semua bahasa daerah yang ada di Indonesia ini sebagai salah satu kekayaan budaya bangsa Indonesia, b) mengingat persebaran bahasa nasional Indonesia belum menjangkau suku-suku terpencil itu, maka studi tentang bahasa lokal ini dapat menjembatani kesenjangan komunikasi pembangunan yang sedang digiatkan di seluruh pelosok tanah air, c) dapat dijadikan sarana awal pemberantasan tuna aksara, tuna bilangan dan tuna Bahasa Indonesia untuk merintis jalan kemajuan kehidupan setara dengan saudara-saudaranya warga Bangsa Indonesia lainnya.

Kami sangat menghargai usaha penelitian bahasa lokal dan usaha-usaha lain dalam perintisan memajukan suku-suku terpencil ini, yang telah dilakukan dalam rangka Kerjasama Uncen-SIL, dan terutama kepada saudara Bill Brown, yang langsung menangani suku Mai Brat di Kecamatan Ayamaru Kabupaten Sorong baik dalam kegiatan penelitian bahasanya maupun kegiatan lain dalam merintis kemajuan masyarakatnya. Terima kasih dan penghargaan juga kami sampaikan kepada para penyunting Tesaurus ini Drs. Ch.J. Sujanto, M.S., Dr. Peter Silzer dan Drs. Theodorus T. Purba, M.Sc.

Kata Pengantar

Bahasa Mai Brat digunakan oleh kurang-lebih 21.000 penutur di Irian Jaya, Indonesia. Kira-kira 17.000 orang penuturnya yang mendiami pedalaman Kepala Burung, yaitu Kecamatan Ayamaru, Kecamatan Aifat dan Kecamatan Aitinyo. Kurang-lebih 4000 orang lainnya tersebar di beberapa kota lain di Irian Jaya.

Buku ini merupakan kumpulan perbendaharaan kata yang dikelompokkan atas dasar persamaan arti dan terdiri dari sekitar 2500 kata serta ungkapan yang dikelompokkan menjadi 14 kategori konseptual dan lebih dari 100 subkategori. Kategori-kategori konseptual atau umum ini diurutkan mulai dengan alam, kemudian manusia, pekerjaannya, kebudayaannya, dan akhirnya bahasanya. Dalam penurutan subkategori-subkategori ini istilah-istilah yang lebih umum mendahului istilah-istilah yang lebih khusus. Sebagai contoh dalam subkategori tumbuh-tumbuhan pohon diurutkan lebih dahulu dari bagian-bagiannya seperti cabang dan getah; setelah itu diberikan nama khusus pohon-pohon seperti pohon sagu, pohon pepaya, dan seterusnya.

Walaupun keterangan kata kerja bahasa Inggris disebutkan dalam bentuk infinitif biasa, keterangan Bahasa Mai Brat disebutkan dalam bentuk orang kedua tunggal.

Preface

The Mai Brat language is spoken by approximately 21,000 people in the province of Irian Jaya, Indonesia. About 17,000 speakers are found in the three interior districts of the Bird's Head Ayamaru, Aifat and Aitinyo. There are also approximately 4000 speakers located in various coastal cities of Irian Jaya.

This book is a thesaurus of approximately 2,500 lexical items arranged under 14 broad conceptual categories with more than 100 sub-categories. The broad categories are ordered, starting with nature, going to man, his work, his culture, and finally his language. Within the sub-categories, the logically more general term precedes the more specific. For example, under plants, tree is put before its parts, branch and sap; and then tree, branch, and sap come before the specific names of trees such as sago and papaya.

While the English verb gloss is cited in the conventional infinitive form, the Mai brat, because of the complexity of the verb, is cited in the second person singular form.

Pelafalan Dalam Bahasa Mai Brat

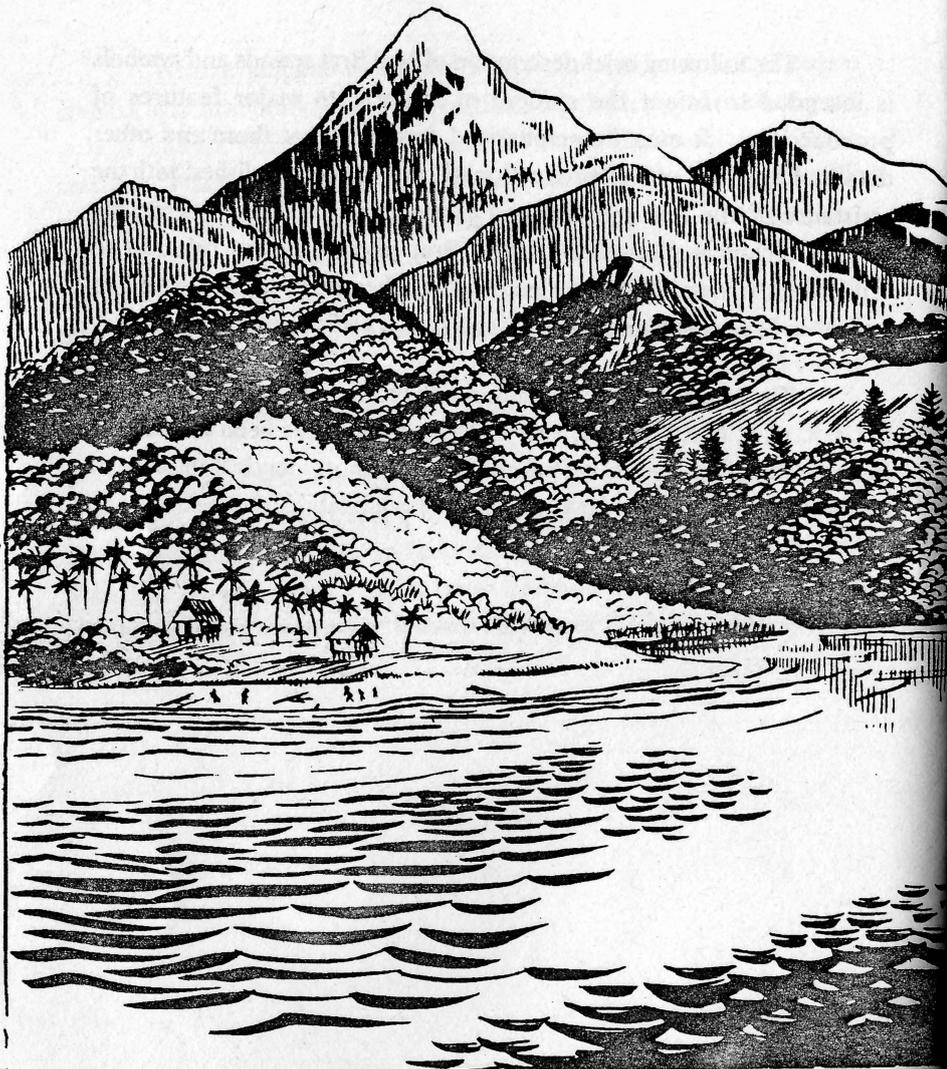

Uraian singkat mengenai bunyi dan lambang bunyi dalam Bahasa Mai Brat berikut ini di maksudkan untuk memperkenalkan para pelajar Bahasa Mai Brat kepada ciri-ciri utama dari pelafalan bahasa tersebut. Namun demikian, perlu ditekankan bahwa hal-hal tersebut di atas dan seluk beluk pengucapan bahasa Mai Brat hanya dapat diperoleh dan disempurnakan dengan bantuan penutur asli Mai Brat dan melalui latihan sendiri. Para ahli ilmu Bahasa yang ingin mengetahui lebih lanjut mengenai fonologi Bahasa Mai Brat ini dapat melihat "A Quantitative Phonology of Mai Brat" oleh William U. Brown, 1989 dalam Papers in New Guinea Linguistics, Pacific Linguistics.
