With grateful appreciation for
Apeninge Amoida, Tiini Amoida, Aboontu Amoida,
and E. Metsen Sanne,
without whose valuable assistance over a period of many years
this word list would not have been possible.

## Notes:

- 1. In Saramaccan, number is indicated within the article rather than within the noun, thus a noun is neither singular or plural.
- 2. Many words can be reduplicated; this usually involves a change of speech but keeps a related meaning: e.g. limbo(adj.), limbolimbo (pred. adj.); 'clean; clear'; maaka 'mark' (noun), maakamaaka 'marked'(adj.). Most reduplications are not given in this wordlist.
- 3. In this word list, high tone is marked with an accute accent. Unmarked syllables are low tone.
- 4. Kp is often interchangeable with kw. If the item is not alphabetized under kp it may occur under kw. The same is true with gb and gw. Also, many words beginning with o can also begin with h or w. If an item is not found under o, look under h or w.
- 5. In the alphabetical order used here, e occurs before  $\ddot{e}$ , and o occurs before  $\ddot{o}$ .
- 6. Many nouns can also be verbs. There has been no serious effort made to check out each noun to see it it can also be a verb, and vice versa.
