## FOREWORD

Some of the glory of the Philippines lies in the beautiful variety of people and languages within its coasts. It is to the great credit of the national leadership over the years that no attempt has been made to destroy this national heritage. The goal has been instead to preserve its integrity and dignity while building on this strong foundation a lasting superstructure of national language and culture.

The present book is one of many designed for this purpose. It recognizes the pedagogical importance of dividing literacy and second-language learning into two steps--literacy being the first. When a student has learned to read the language he understands best, the resulting satisfaction in his accomplishment gives the drive and confidence he needs to learn the national language. His ability to read furthermore, is the indispensable tool for the study this program will require.

The Department of Education of the Philippines is proud to present this latest volume in a nationwide series designed to teach the national language through literacy in the vernaculars. It will strengthen both the parts of the nation and the whole.

## P R E F A C E

This booklet is one of many produced at a Creative Writers Workshop held in Bagabag, Nueva Vizcaya, conducted by Summer Institute of Linguistics in September and October, 1973.

Written by teachers from Natunin, Mt. Province, as a result of field trips taken during the workshop, the booklet fulfills two purposes: that of providing supplementary reading materials for new literates from the municipality of N Natunin, and that of giving detailed information on how to improve and multiply citrus production in the area.

## FOREWORD

One of the noble aims of Education is to equip every citizen to participate meaningfully in his society and to share in shaping the destiny of his country. Providing literacy instruction in each man's vernacular is a basic step in realizing this goal. To promote this purpose the Summer Institute of Linguistics works in agreement with and under the auspices of the Department of Education in the preparation of instructional and supplementary reading materials for the various Cultural Minorities of our country.

The Bureau of Public Schools takes pleasure, therefore, in presenting this volume of literacy material which is part of its list of approved supplementary reading materials prepared for use by the Public School in the areas using the vernacular of these materials.
