## PREFACE

This is the first of a series of graded primers designed to teach reading to preliterate speakers of the Ata Manobo dialect of Northern Davao Province.

The letters of the alphabet are symbolized as follows: a, b, k, d, g, h, i, m, n, ng, o, p, s, t, u, w, y, and glottal stop. Glottal accent is represented by the grave accent (`) word finally; all other occurrences are represented by the hyphen (-).

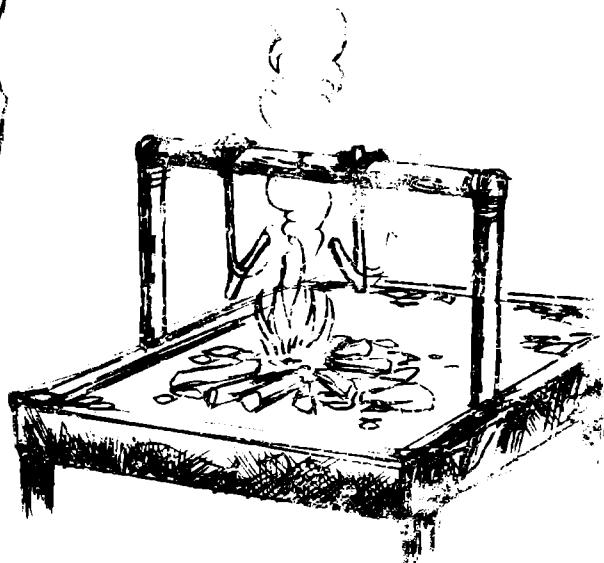

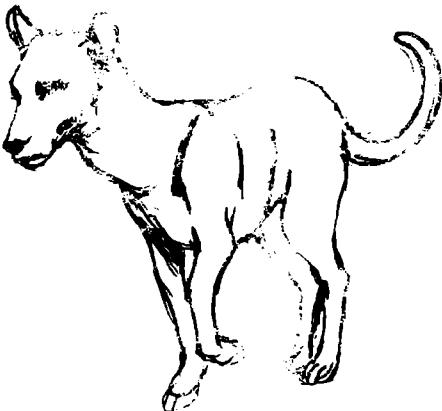

The pronunciation of o is similar to the pepet vowel (e) in Pangasinan. All other letters are pronounced similar to the Pilipino National Language.

This first primer introduces a, i, o, u, n, t, k, from a total of 19 letters of the Ata Manobo alphabet.

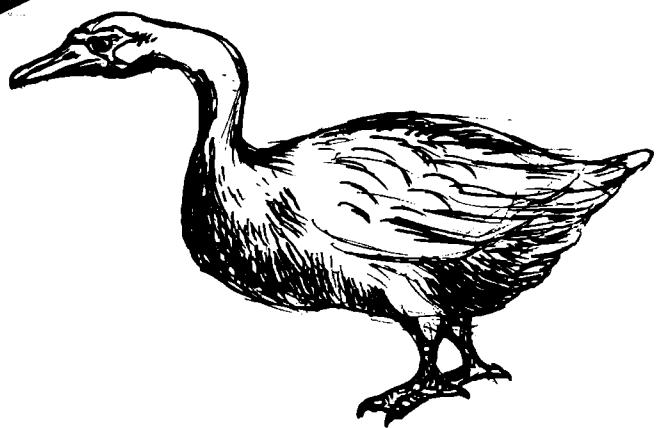

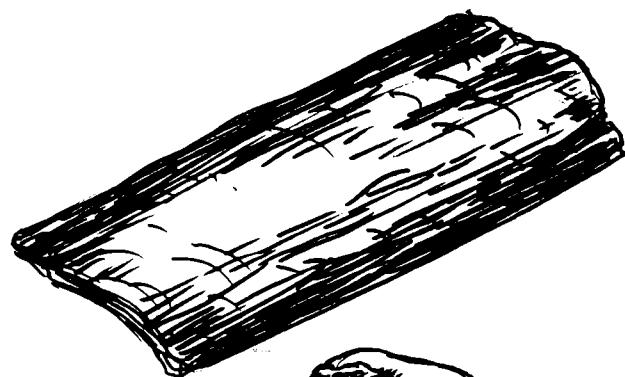

These materials were prepared under the auspices of the Summer Institute of Linguistics by Shirley Abbott.
